

## JET POWER II®

### JET POWER II GREASE LIQUEFIER

Containing powerful surfactants that leave the sewer virtually grease free after just one pass, Jet Power II® is jet-sprayed upstream from the affected pipe.

- Effectively liquefies grease in sewer lines on contact.
- Easy self-application with standard jet trucks.
- The liquid grease washes downstream and will not re-coagulate.
- Pipes are left virtually free of grease, extending the time between service calls.
- Jet Power II® is non-corrosive, biodegradable, non-acidic, non-caustic, and is treatment plant friendly.
- Injector systems available for precise dilution and application.
- Guaranteed Results
- Most pipes are left virtually free of grease after just one pass using Jet Power II® Grease Liquefying System.
